III. Creation of ICT Mediated Teaching Learning Pedagogy and Content and Development of New and Innovative Courses and Curriculum.

Creation of ICT-Mediated Teaching-Learning Pedagogy and Content

At Rani Channamma University, Belagavi, a comprehensive series of structured online video lectures was developed and implemented through the e-Vidya platform, hosted on a Learning Management System (LMS), as part of an ICT-enabled teaching-learning initiative. The primary objective was to enhance student engagement by integrating diverse educational tools such as multimedia presentations, real-world case studies, interactive Q&A sessions, and continuous assessments. This digital pedagogy was carefully aligned with the core principles of the National Education Policy (NEP) 2020, emphasizing learner-centric approaches, curriculum flexibility, and outcome-based education. The initiative reflects the university's commitment to innovation in higher

education and the effective use of technology to improve teaching and learning experiences.

1. Developed and presented an online video lecture for Political Science postgraduate students at Rani Channamma University, Belagavi. The lecture was hosted on the RCU E-Vidya platform, integrated with a Learning Management System (**LMS**), and utilized **ICT-enabled pedagogical** methods to enhance conceptual clarity, promote learner engagement, and ensure accessibility for remote students.
